

How to develop evidence and commissioning for your medical device

The Centre at Birchwood Park

Are you:

- A Medical or Health Technology Small to Medium Enterprise
- Wanting your devices to be trialled or evaluated
- Unsure on how to get your products procured by the NHS

If so, the North West Surgical Trials Centre, in collaboration with both the Greater Manchester Academic Health Science Network and the Innovation Agency is holding a **FREE** must attend event on.

*****Friday 23rd June 2017*****

Booking is essential to secure a place. Parking, lunch and refreshments are included with our compliments. Warrington venue. Easy to get to.

This **KEY EVENT** will feature informative talks from:

- **NWSTC** - Evidence needs and how we can assist with gathering it
- **Knowledge Transfer Network** - Funding and opportunities available
- **The University of Oxford** - IDEAL-D Framework
- **NICE** - How to develop evidence for your product
- **NOCRI** - their STEP collaboration with RCSEng and the value it gives
- **MediLink(NW)** - Support in product development
- **ABHI** - Contribution to life science industry
- **AHSNs** - NHS device procurement and accelerated access to it
- **Surgeons** - exemplars of successful collaborations

Plus Breakout sessions to discuss device evidence and commissioning
