## LIVERPOOL ECMC NEWSLETTER JANUARY 2020 *HAEMATOLOGY*

### NEW EARLY PHASE TRIALS OPENING FEBRUARY 2020

**PORT** is for patients with mycosis fungoides or sezary syndrome who have relapsed / are refractory after at least 1 prior systemic therapy. It offers a combination of pembrolizumab and radiotherapy.

**BI-1206** is for all patients with a CD32b+ B cell malignancy or CLL, who are relapsed/refractory to conventional treatments, or for whom no conventional therapy exists, or has been declined by the patient.

It uses rituximab in combination with anti-CD32b for treatment over 4 weeks with maintenance over another year if the patient responds.

**Please contact Jane Tinsley for potential referral to these trials.**

## OPEN TRIALS

Please contact [Jane Tinsley](#) for potential referral to these trials.

- Telephone: 0151 706 4886
